“METHODOLOGY FOR IMPROVING AND REPORTING THE LEVEL OF SEQUESTERED CARBON IN THE SOIL IN THE AGRICULTURAL SECTOR”

1. Intellectual Property

The METHODOLOGY FOR IMPROVING AND REPORTING THE LEVEL OF SEQUESTERED CARBON IN THE SOIL IN THE AGRICULTURAL SECTOR (hereafter “the Methodology”) is a property of AGviser AG and is protected under applicable copyright and intellectual property laws.

AGviser AG retains full ownership and rights to the Methodology, including all documentation, tools, templates, and related materials, regardless of its acceptance by a third-party Standard/Registry.

2. Public Availability

The Methodology is published in full on <http://www.agviser.bg> to promote transparency and stakeholder engagement. However, public availability does not imply free or unrestricted use for commercial purposes.

3. Authorized Use

The Methodology may only be used under the following conditions:

Use Case	Allowed Without License	License Required
Academic or non-commercial research	Yes	No
Stakeholder review or public consultation	Yes	No
General awareness, benchmarking, or reference use	Yes	No
Use in a registered or pending GHG project under any Standard	No	Yes
Integration into a project design document (PDD) or GHG monitoring plan	No	Yes

4. Licensing for Project Use

To use the Methodology for the development, registration, or validation of a GHG project under any carbon standard or registry, project developers must obtain a **commercial license** from AGviser AG.

Licensing includes:

- Non-exclusive right to apply the methodology for a specific project
- Technical support during the implementation phase (optional, if included)
- Terms for multi-project or portfolio discounts (available upon request)

To request a license, please contact: **license@agviser.bg**

5. Restrictions

Without a valid license, the Methodology may **not** be:

- Used in a registered or commercial GHG project
- Integrated into project documentation submitted to a Standard
- Copied, altered, or republished for commercial use
- Sub-licensed or redistributed

Violations may result in legal action or notification to the applicable registry or Standard.

6. Acknowledgment and Citation

All users must properly cite the Methodology in any documents or publications. The recommended citation is:

AGviser AG. “METHODODOLOGY FOR IMPROVING AND REPORTING THE LEVEL OF SEQUESTERED CARBON IN THE SOIL IN THE AGRICULTURAL SECTOR, Version (cite up to date version and date)”. Available at: <http://www.agviser.bg>

7. Changes and Updates

AGviser AG reserves the right to update, revise, or replace the Methodology at its sole discretion. Licensed users and/or third-party Standard/Registry accepted it will be notified of updates affecting applicability, crediting rules, or quantification methods.

8. Disclaimer

Use of the Methodology is at the user’s own risk. AGviser AG makes no warranties, express or implied, regarding the fitness of the Methodology for any specific project or context. Acceptance

of the Methodology by a third-party Standard/Registry does not constitute endorsement or warranty by AGviser AG.

9. Contact
